Our New Historian

Susmitha Akula is our section's new historian. She is a PhD student in her second semester from the Physics department. Some fun facts about her are: she loves painting and drawing, she has a master's degree in engineering management, and she was the first girl in her family to study abroad. Look for Susmitha at all of our SWE events. She will be the one behind the camera!

Fundraising News

Hey girls,

Below is a link to the sign-up for the carnation selling fundraiser. This event is going to be a lot of fun so sign up with all your friends! There are two separate ones, one for selling in the Havener Center and one for selling in front of the library. Feel free to sign up for as many or as few time slots as you choose.

Please try to get there as soon as you can so the girls before you can go to class. Please include your e-mails in the name box so I can send you reminder e-mails!

The carnations are \$2.00 for a single flower, 3 for \$5.00 and \$15 for a dozen.

Outreach News

So I hope you're excited! As you know our Nano-Scale + Technology Activity training is TOMORROW at 7 to 9 pm and Friday at 5 to 7pm, and will be located in Fulton 227(YOU ONLY NEED TO GO TO ONE). For the Tuesday training our Nanotechnology advisor Professor Bristow will be accompanying us. The reason we do outreach activities like the Nano-Scale + Technology Activity is to inspire middle school students to think about STEM (science, technology, engineering, and math) careers as a potential for their future. With our Nano-Scale Technology Activity we are aiming to do just that. We don't expect you to become experts or have previous experience in Nanotechnology, but to have fun and help these students have fun as well. And you never know you might learn something new as well too! So, I hope to see you and together we can have fun, inspire a youth, and learn how gold isn't really gold colored on a nano-scale.

SWE Inspiration

SWE and Water Environment Federation (WEF) are hosting the tie-dye station at Missouri S&T's Earth Day celebration on Friday, April 20th. We need help coming up with skits pertaining to Earth friendly activities for the kids to watch and volunteers to help with tie dying. If you are interested in creating the skits, performing in the skits, or volunteering during Earth Day please contact Elise Kittrell at efk2n4@mst.edu

The way to gain a good reputation is to endeavor to *be* what you desire to appear. -
