What’s Next for SWE?

The Missouri S&T SWE section had a lot of great events last semester. To recap, we had speakers from Nucor and Solar Turbines, and Dr. Sheppard talked about the History of Women in Science. We started up several new outreach programs including volunteering for the Salvation Army, and our Rolla Public Library outreach which is expanding this semester. The lock-in was very successful and I am excited to see the new activities Gracie has planned for the lock-in coming up in March. We had our annual car wash fundraiser and sent seven girls to the SWE National Conference in Chicago. (continued on page 3)
Pick-up lines
The SWE officer team wanted to share a few of their favorite pick-up lines for Valentine’s Day. Let us know if they worked!

- You have nicer legs than an isosceles right triangle.
- What’s your sine? It must be $\pi/2$ because you’re the 1.
- If I was an endoplasmic reticulum, how would you want me: smooth or rough?
- Here I am! What were your other two wishes?
- Can I be the phasor to your electron and take you to an excited state?
- If you were a new hamburger at McDonalds, you would be called McGorgeous.
- Are you a parking ticket, because you have fine written all over you?

Fundraising News
Hey girls,
Below is a link to the sign-up for the carnation selling fundraiser. This event is going to be a lot of fun so sign up with all your friends! There are two separate ones, one for selling in the Havener Center and one for selling in front of the library. Feel free to sign up for as many or as few time slots as you choose. Please try to get there as soon as you can so the girls before you can go to class. Please include your e-mails in the name box so I can send you reminder e-mails!
The carnations are $2.00 for a single flower, 3 for $5.00 and $15 for a dozen.

Amanda O’Dell, Fundraising Chair
Congratulations to our basketball team for their win against Chi Omega! Our last basketball game is Monday, Feb. 13 @ 7:00 PM on Court 1 vs. CCF/BSU A.

Contact Kayla Scharr at lsg56@mail.mst.edu for more information about Intramural sports.

What’s next for SWE? (continued)

For this semester, we will be sending 8 people to regional conference in Tulsa, OK next month. The national member social at Matt’s Steakhouse was a blast, and I can’t wait for the Kokomo Joes social in April. We have a lot of great events planned for this semester. I am so pleased with how involved our members are getting. Keep it up! Our section can do great things this semester. Check out our calendar of events for the rest of this month, and see you all at our next meeting on Tuesday, February 21 at 5PM in Fulton 227!

Jen Glotz – SWE President

Valentine’s Day Cards

Thank you to all the members that made Valentine’s Day cards for the Phelps County Regional Medical Center. We were able to deliver over 150 cards to the sick and elderly. You will help brighten over 150 patients’ day tomorrow as they open up your cards. Thank you for giving back to your community.

IM NEWS

SWE Inspiration

The difference between a successful person and others is not a lack of strength, not a lack of knowledge, but rather a lack in will.

Vince Lombardi
Outreach News

We have a lot of outreach activities coming up soon! We will be teaching grade school students on campus from 5-7 on February 23, 2012. We will also be going to Salem Middle School on February 29, 2012 from 8-3. We need a lot of volunteers for this day, so don’t forget to sign up! The reason we do outreach activities like the Nano-Scale + Technology Activity is to inspire middle school students to think about STEM (science, technology, engineering, and math) careers as a potential for their future. With our Nano-Scale Technology Activity we are aiming to do just that. We don’t expect you to become experts or have previous experience in Nanotechnology, but to have fun and help these students have fun as well. And you never know you might learn something new as well too! So, I hope to see you and together we can have fun, inspire a youth, and learn how gold isn’t really gold colored on a nano-scale.

SWE and Water Environment Federation (WEF) are hosting the tie-dye station at Missouri S&T's Earth Day celebration on Friday, April 20th. We need help coming up with skits pertaining to Earth friendly activities for the kids to watch and volunteers to help with tie dying. If you are interested in creating the skits, performing in the skits, or volunteering during Earth Day please contact Elise Kittrell at efk2n4@mst.edu

Become a National Member today! We are currently offering a $20 sponsorship to the first 20 people to become a national member this Spring semester. Contact Jamie Clark jccfk6@mst.edu for more information.
