- April 19, 2012 – General Meeting 5:00 Fulton 227
- April 21, 2012 – PRO day
- April 28, 2012 – PRO day

Saint Patrick's Day Social

We will be making a banner for the Saint Patrick's Day parade on March 8, 2012 at 5:00 in Fulton 227. There will be great food, and you will get a chance to meet all of the amazing SWE members! We will also be walking in the parade on March 17, so get ready to celebrate your Saint Pat's the SWE way!

215 Centennial Hall
300 W. 12th St.
Rolla, MO 65409
Phone: (573) 341-7286

How to Make the Most of SWE

1. Get involved:

You can help plan socials, fundraisers, and outreach activities by joining their committees. You can also play on the intramural sports teams. Just showing up for all of the SWE activities is a great way to get involved and meet more SWE members. You get free food and/or giveaways at most activities. It will also help to get your name out there if you are planning to run for an officer position next semester.

2. Become a national member:

It will look great on your resume, and you will be eligible for scholarships on the national level. There are also sectional benefits such as national member socials, and being eligible to attend conferences.

3. Talk to other SWE members at meetings:

You will get the opportunity to meet so many great individuals. You can build friendships and also find students to study with for your classes. It is also essential to build your interpersonal skills. The more you practice meeting and talking with people, the more fine-tuned your skills will become.

IM NEWS

- The women's racquetball team got 3rd in the doubles tournament on Saturday.

- The men's racquetball team got 7th in singles and 9th in doubles so they accumulated the second highest IM point total for the weekend!

- Table tennis singles are Friday, March 2 and doubles are Saturday, March 3. Entries are due February 27 so email me at klsg56@mail.mst.edu if you're interested in playing.

The Valentine's Day Fundraiser was very successful this year. Thank you for all of your help!

SWE Inspiration

A fool thinks himself to be wise, but a wise man knows himself to be a fool.

Outreach News

We have a lot of outreach activities coming up soon! We will be teaching grade school students on campus from 5-7 on February 23, 2012. We will also be going to Salem Middle School on February 29, 2012 from 8-3. We need a lot of volunteers for this day, so don't forget to sign up! The reason we do outreach activities like the Nano-Scale + Technology Activity is to inspire middle school students to think about STEM (science, technology, engineering, and math) careers as a potential for their future. With our Nano-Scale Technology Activity we are aiming to do just that. We don't expect you to become experts or have previous experience in Nanotechnology, but to have fun and help these students have fun as well. And you never know you might learn something new as well too! So, I hope to see you and together we can have fun, inspire a youth, and learn how gold isn't really gold colored on a nano-scale.

SWE and Water Environment Federation (WEF) are hosting the tie-dye station at Missouri S&T's Earth Day celebration on Friday, April 20th. We need help coming up with skits pertaining to Earth friendly activities for the kids to watch and volunteers to help with tie dying. If you are interested in creating the skits, performing in the skits, or volunteering during Earth Day please contact Elise Kittrell at efk2n4@mst.edu

Become a National Member today!

We are currently offering a \$20 sponsorship to the first 20 people to become a national member this Spring semester. Contact Jamie Clark jccfk6@mst.edu for more information.
